You should definitely check them out.

Can't wait to see you all!

Hi XXX (your name),

Thank you for the warm reception and the wonderful travel plan you made for me. This is the best trip that I've ever had!

The city is fascinating for all its tourist attractions, historic relics and the cultural heritage. They are so different from what I had known and had expected that I felt a bit astonished when I first saw them. No wonder this trip has truly broadened my horizon. I will be taking the course of "Chinese history" next semester and I'll surely write about my experience of this trip to China in my essay. It has provided me with a brand-new perspective on its people and their way of life.

By the way, I really enjoy the local snacks for their unique tastes. And it's very interesting to see how different Chinese cuisine is from its western counterparts. But I kind of fall in love for it.

Please visit Canada when it's convenient for you. I'd like to show you around my hometown and introduce to you some of the Canadian specialties.

Look forward to hearing from you soon.

Best regards!

Chris
