I. Identifying forms and functions of the infinitives

Interactive Activity 1: Read the paragraph below, underline the infinitives in it and conclude the basic forms of infinitives.

It requires a certain amount of knowledge to appreciate a work of art. We should be able to explain why we like or dislike the artwork. The easiest way to begin our appreciation is to place the work in its time and place, because we need to know how it is related to the context in which it is created. Knowing how to appreciate artworks can help us (to) understand the messages they express.
