《高中英语》（上外版）

1CU1 Reading A

主讲人：李莘

《高中英语》（上外版）

必修第一册第一单元

课时	授课内容
1	Getting Started/ Reading A
2	Reading A/ Vocabulary Focus
3	Reading A/ Grammar in Use
4	Listening and Viewing
5	Moving Forward
6	Reading B
7	Critical Thinking/Further Exploration/ Self-assessment

Objectives

By the end of this class, you will be able to...

- figure out the general idea of the passage through analysis of organizational pattern.

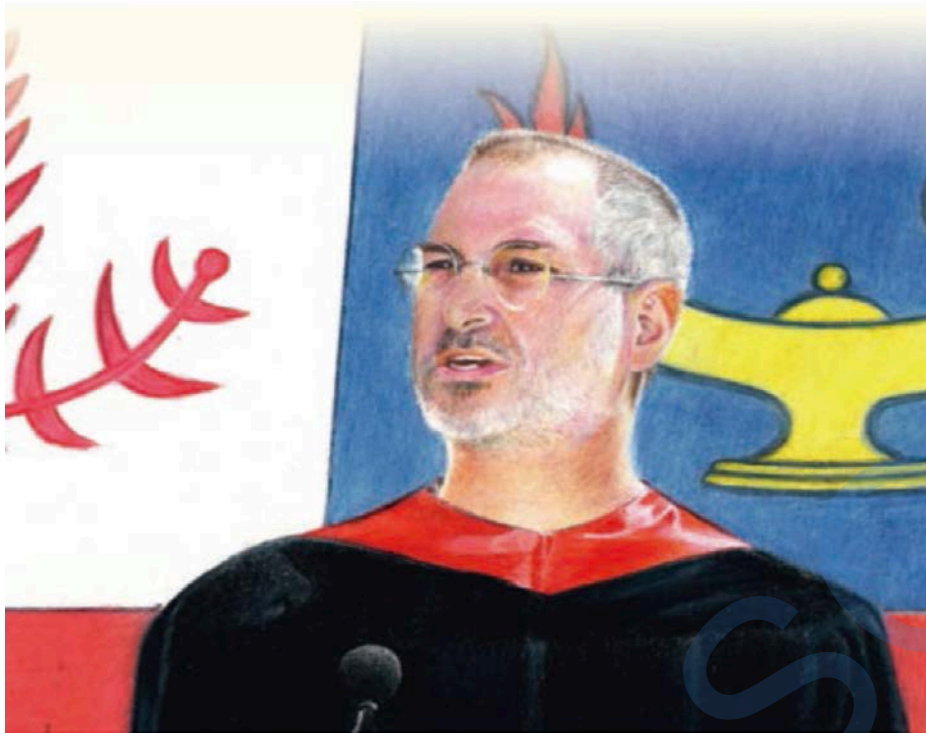

- have a good understanding of Jobs' life experience through mind mapping.

- identify the three factors that lead Jobs to success through reasoning according to the facts.

- interpret the motto "stay hungry, stay foolish" through critical thinking.

Reading A comprehension

Stay Hungry
Stay Foolish

Getting Started

*Read the three quotes on page 4.
According to each quote, what is
the **key to success**?*

- **Happiness**
- **Continual growth**
- **Hard work, Devotion, Commitment...**

Success is not the key to happiness. Happiness is the key to success. If you love what you are doing, you will be successful.

— Albert Schweitzer

Without continual growth and progress, such words as improvement, achievement, and success have no meaning.

— Benjamin Franklin

Success usually comes to those who are too busy to be looking for it.

— Henry David Thoreau

Organizational Analysis

Skim the text and complete the **outline** on page 6.

Introduction

Opening sentence

Overview: *3 life stories*

Body

Story1: *Connecting the dots*

Story2: *Love and loss*

Story3: *Death*

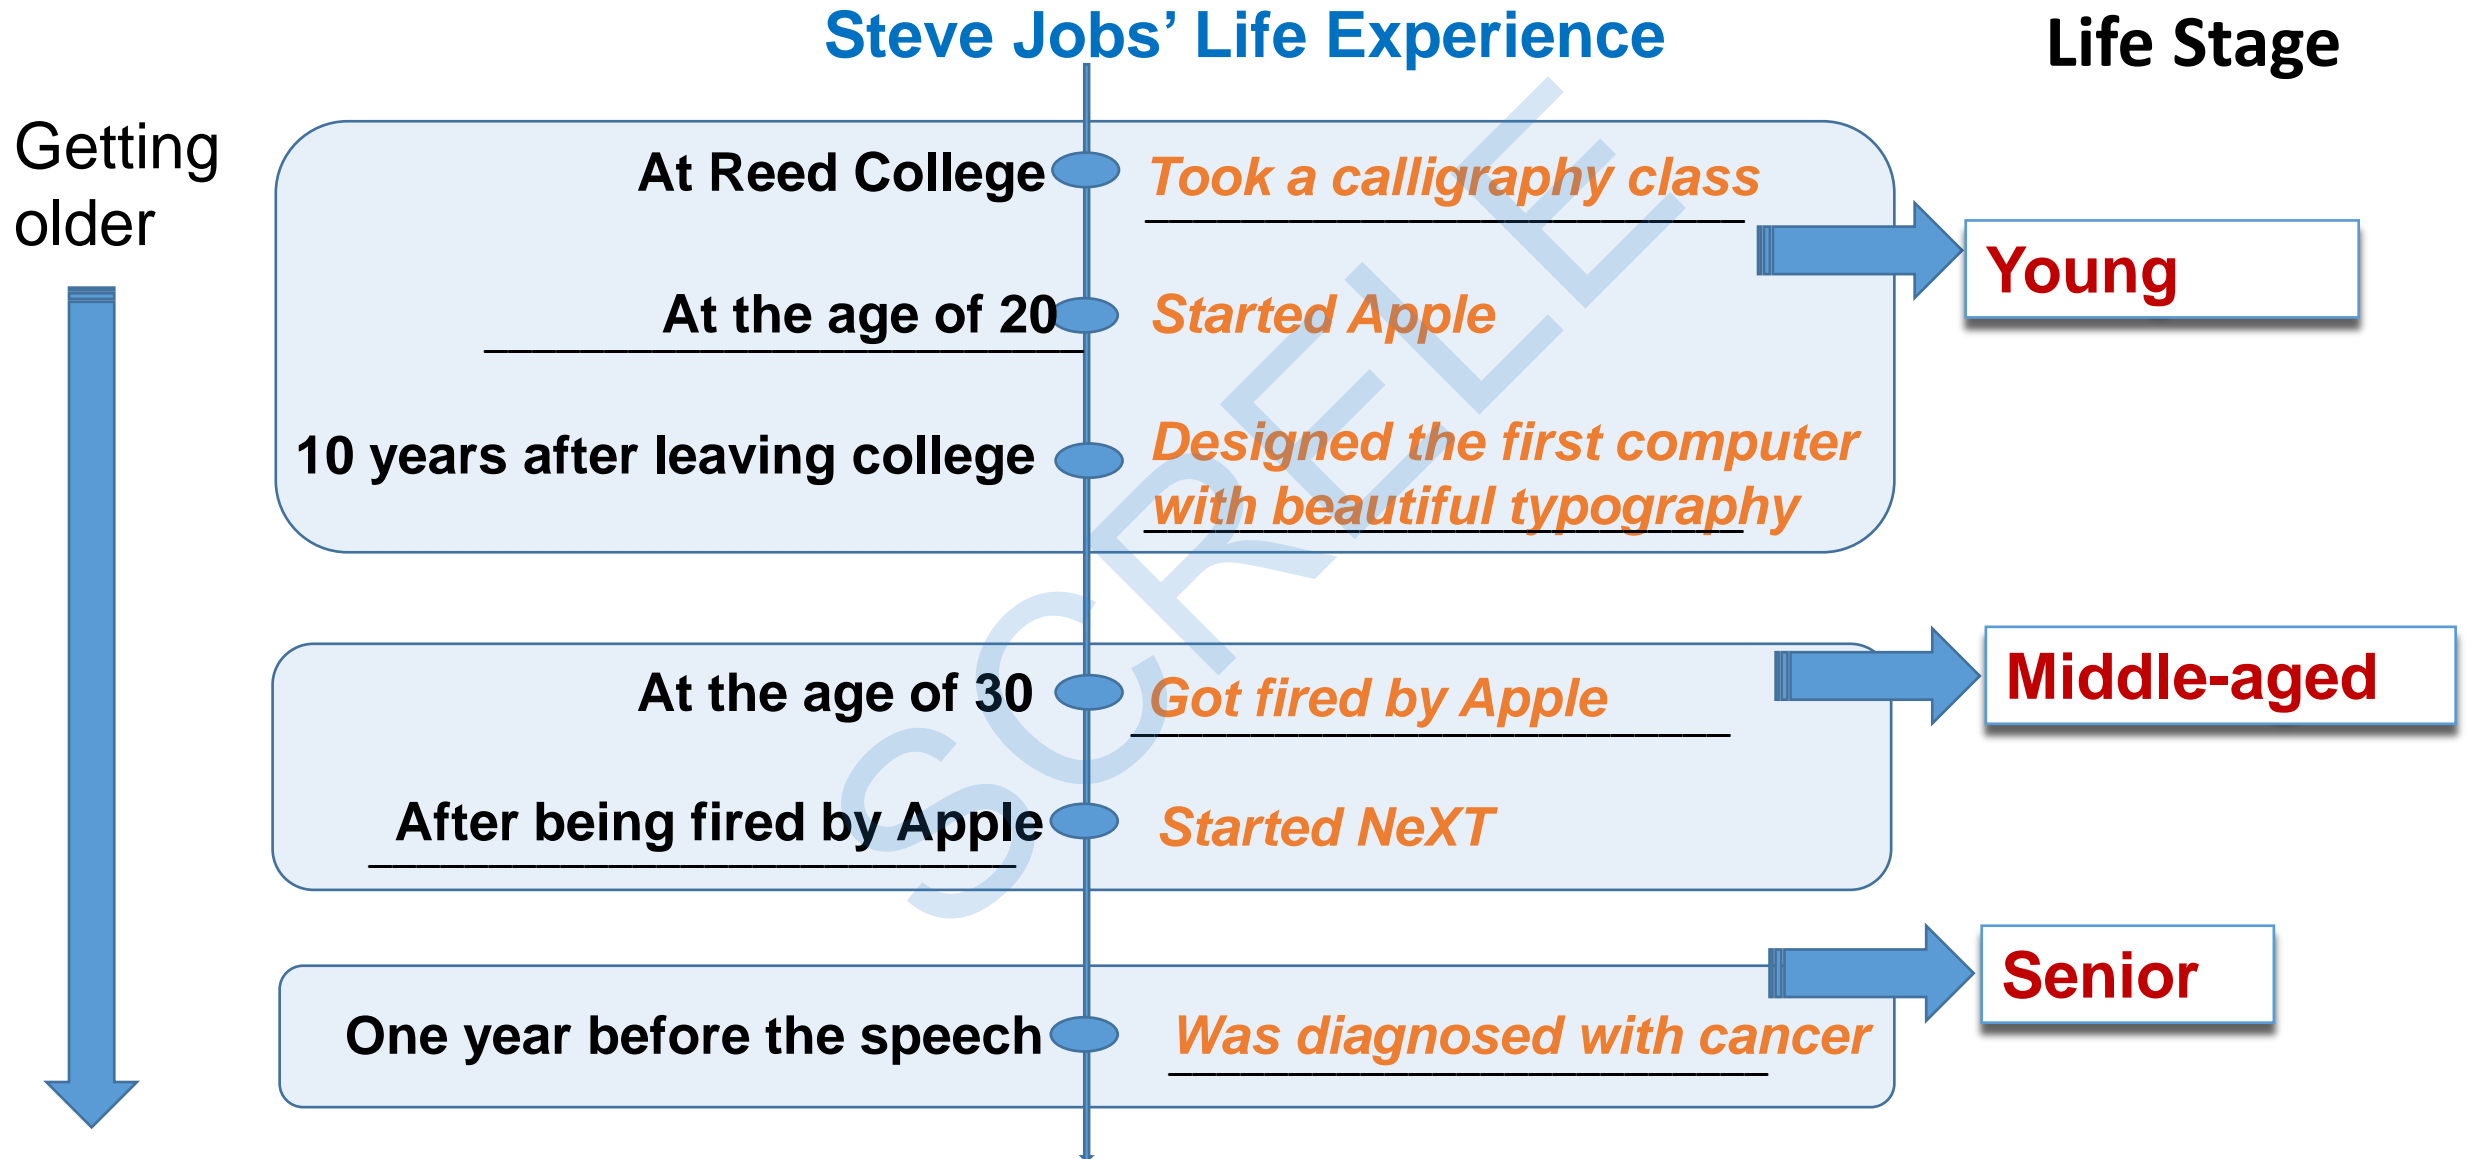

Conclusion

Message: *Stay hungry, stay foolish*

Closing sentence

Mind Mapping

Reasoning

Young: Connecting the dots

At Reed College

Took a calligraphy class

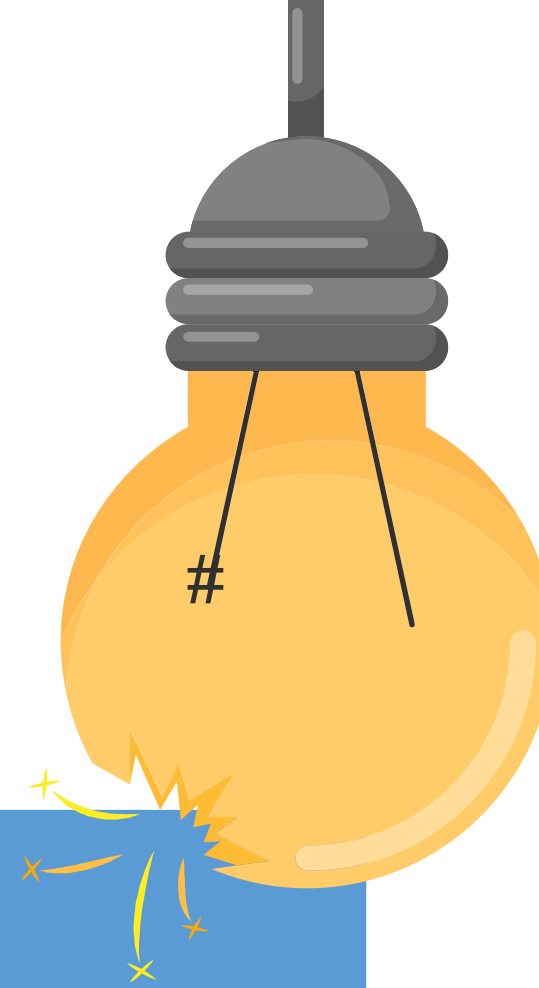

At the age of 20

Started Apple

10 years after leaving college

*Designed the first computer
with beautiful typography*

1. What does “dot” refer to in story 1?
2. What does Jobs mean by saying “it is impossible to connect the dots looking forward. You can only connect them looking backwards”?

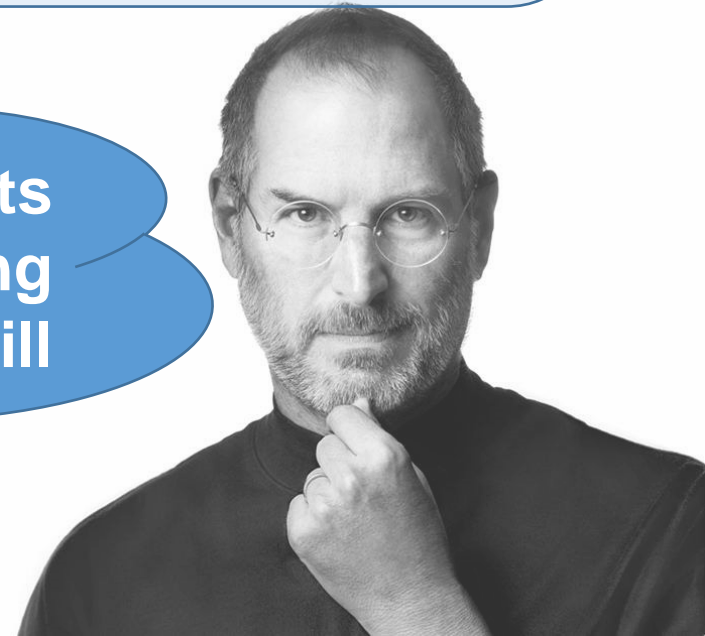

Reasoning

...At that time none of what I learned about calligraphy seemed to have even a hope of any practical application in my life.

But ten years later when we were designing the first Macintosh computer, it all came back to me...

Of course it was impossible to connect the dots looking forward. You can only connect them looking backwards. So you have to trust that the dots will somehow connect in your future.

Reasoning

Steve Jobs' Life Experience

Secret to success

At Reed College

Took a calligraphy class

Age of 20

Started Apple

10 years after leaving college

*Designed the first computer
with beautiful typography*

Age of 30

Got fired by Apple

After being fired by Apple

Started NeXT

One year before the speech

Was diagnosed with cancer

***Valuing
accumulation***

Reasoning

Middle-aged: Love and Loss

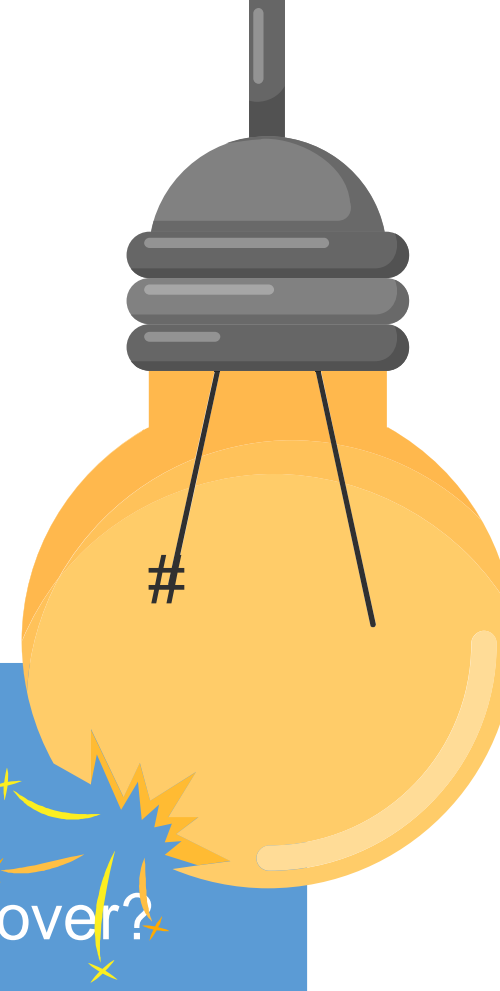

Age of 30

Got fired by Apple

After being fired by Apple

Started NeXT

1. What does “love” and “loss” mean in his second story?
2. According to Jobs, what is the key factor making him start over?
3. Based on this story, what can be the second secret to success?

Reasoning

...But something slowly began to dawn on me— I still loved what I did. And so I decided to start over.

I'm convinced that the only thing that kept me going was that I loved what I did. So, if you haven't found what you love, keep looking. Don't settle.

Reasoning

Steve Jobs' Life Experience

At Reed College

Took a calligraphy class

Age of 20

Started Apple

10 years after leaving college

*Designed the first computer
with beautiful typography*

Age of 30

Got fired by Apple

After being fired by Apple

Started NeXT

One year before the speech

Was diagnosed with cancer

Secret to success

*Valuing
accumulation*

*Sticking to
digging out what
you love*

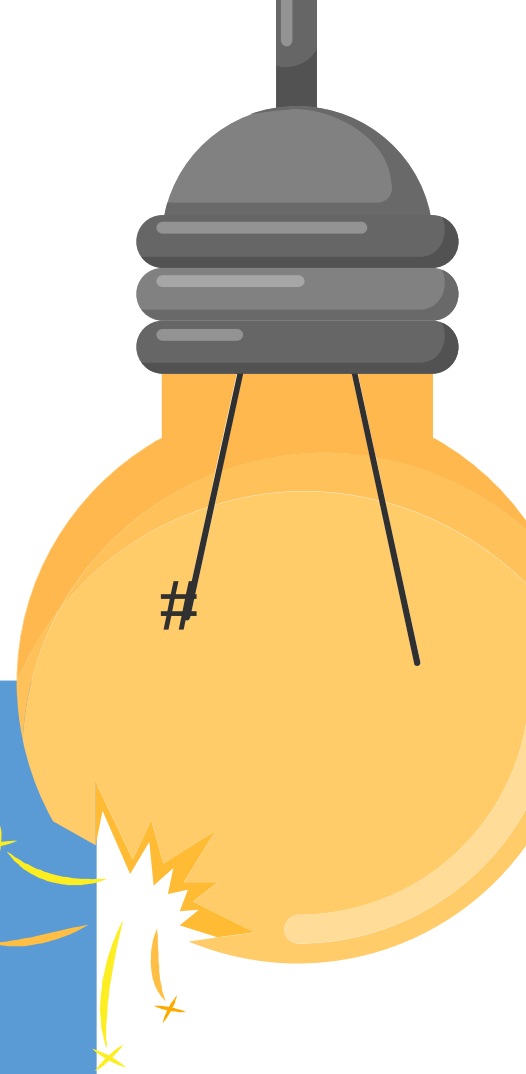

Reasoning

Senior: Death

One year before the speech

Was diagnosed with cancer

1. What does the quotation “If you live each day as if it was your last, someday you’ll most certainly be right” mean?
2. Based on this story, what can be the third secret to success?

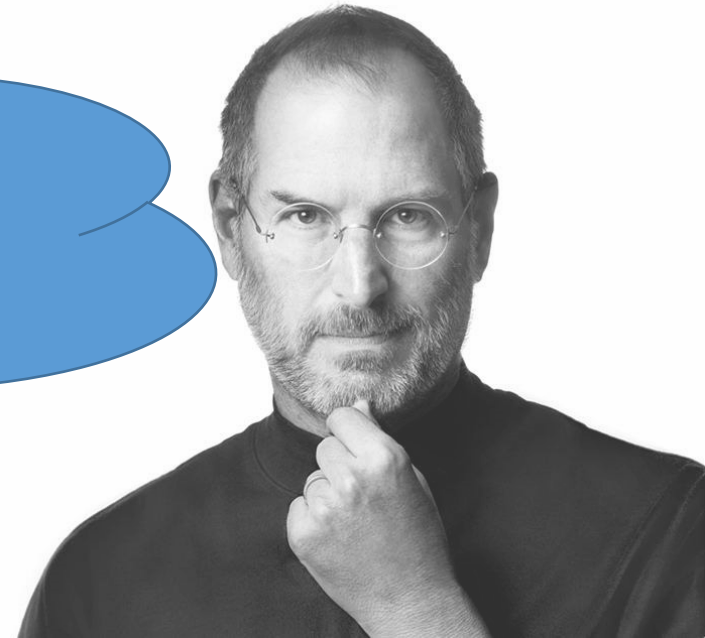

Reasoning

“If you live each as if it was your last, someday you’ll most certainly be right.” About one year ago, I was diagnosed with cancer.

Having lived through it, I can now say this to you:
Your time is limited, so don’t waste it living
someone else’s life.

Reasoning

Steve Jobs' Life Experience

At Reed College

Took a calligraphy class

Age of 20

Started Apple

10 years after leaving college

*Designed the first computer
with beautiful typography*

Age of 30

Got fired by Apple

After being fired by Apple

Started NeXT

One year before the speech

Was diagnosed with cancer

Secret to success

***Valuing
accumulation***

***Sticking to
digging out what
you love***

***Going after what
you think is right***

Critical thinking

Based on the stories, what's your understanding of the title? Please discuss your interpretation with your group members.

Stay hungry. Stay foolish.

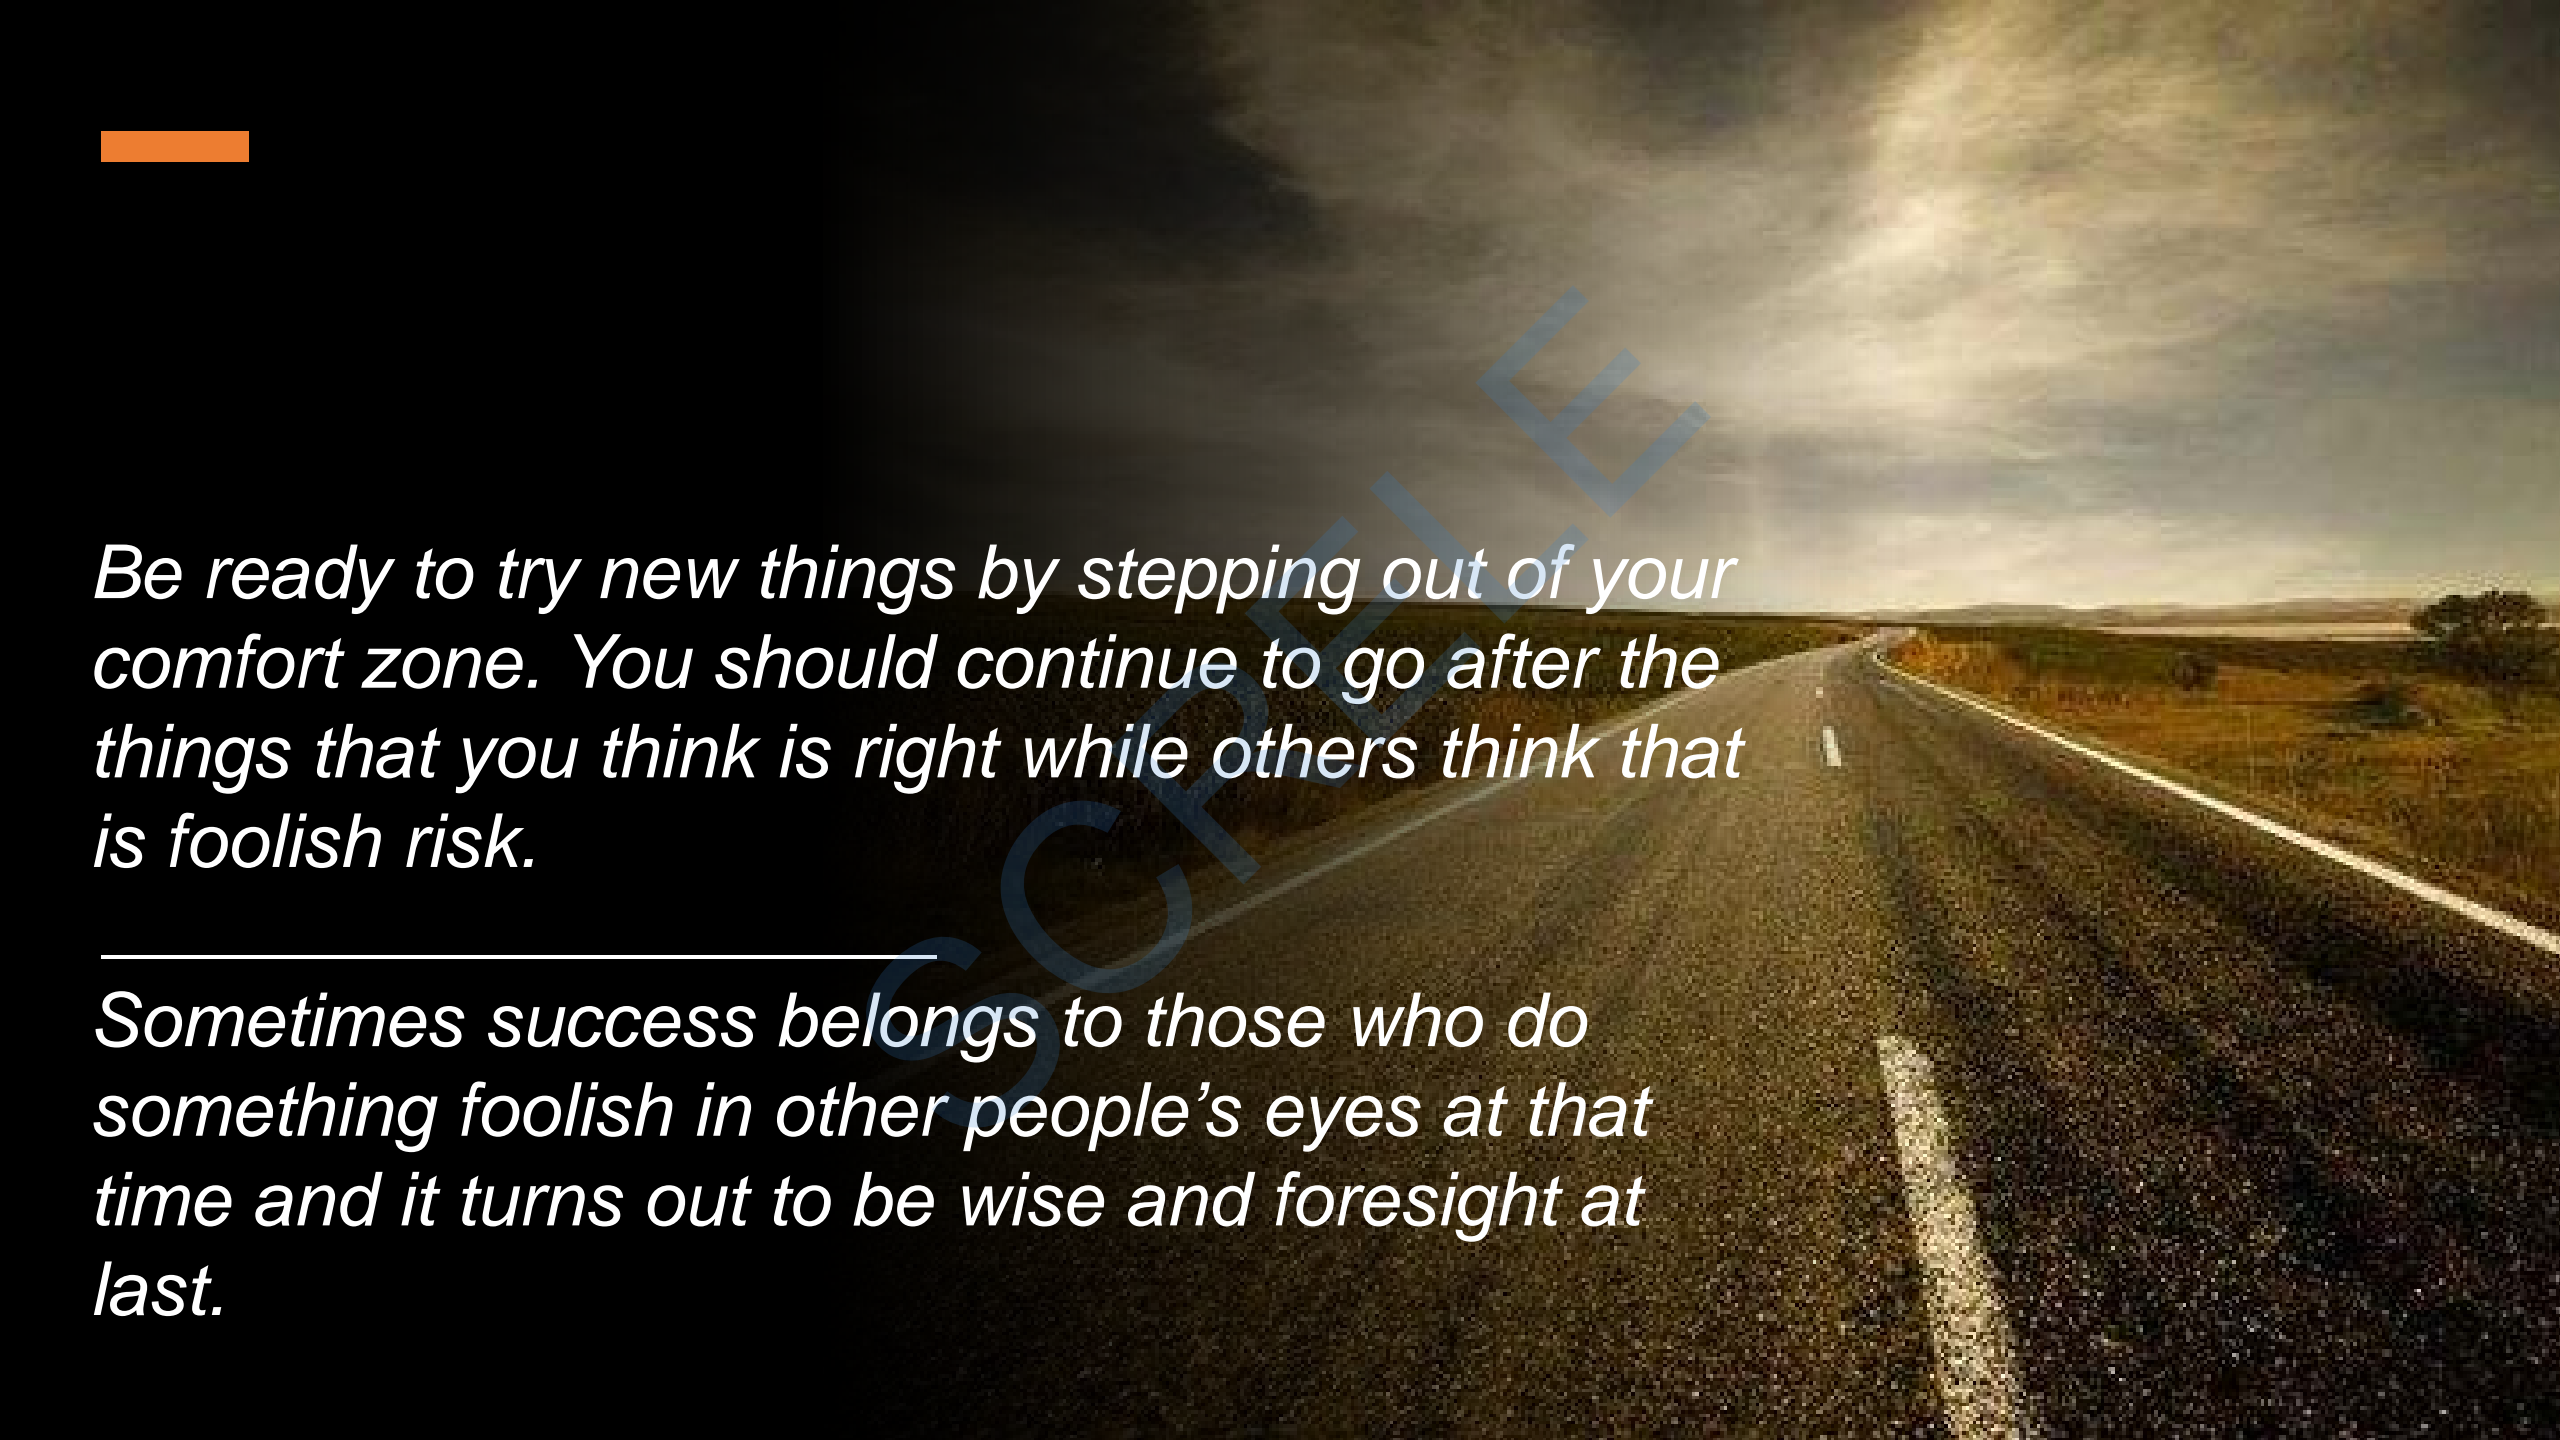

Evaluation

Which one makes the most sense to you? why?

Keep hungry for new knowledge and always be modest.

*Never stop learning.
Never be satisfied with what you've achieved.*

Stick to achieving success. Stick to what you love and never be discouraged by failure.

Be ready to try new things by stepping out of your comfort zone. You should continue to go after the things that you think is right while others think that is foolish risk.

Sometimes success belongs to those who do something foolish in other people's eyes at that time and it turns out to be wise and foresight at last.

Assignment

Read the speech at least twice and write a reflection on it within 150 words. Your reflection may include:

- *the main idea of the speech.*
- *the story that left the deepest impression on you and why.*
